## › **euroCRIS Strategic Membership Meeting**

November 18-20, 2019 at Münster, Germany

## Monday, November 18<sup>th</sup>

09:00 - 14:00 – euroCRIS board meeting

14:00 - 17:00 – DSpace-CRIS User Group Meeting

14:00 - 17:00 – Developers' workshop: Implementation of the OpenAIRE CERIF-XML Guidelines

17:30 - 18:30 – Interest group meeting on the updated DRIS

17:30 - 18:30 – CERIF tutorial

18:30 - 20:00 – Welcome reception, registration and networking

## Tuesday, November 19<sup>th</sup>

08:00 - 09:00 – Registration and welcome coffee

09:00 - 09:15 – Words of welcome

09:15 - 10:30 – Opening session/Keynotes

- Research Information in the Selection Process of Germany's Universities of Excellence  
Inka Spang-Grau - Wissenschaftsrat Head Office
- The Research Core Dataset: standardizing the management and reporting of research information in the German science system  
Sophie Biesenbender - German Centre for Higher Education Research and Science Studies (DZHW)

10:30 - 11:00 – Coffee break

11:30 - 12:30 – German session

- CRIS.NRW - the North Rhine-Westphalian CRIS-initiative  
Malte Kramer - University of Münster / CRIS.NRW
- HeFIS - the Hessian federal CRIS-initiative  
Julia Almering - University of Kassel / HeFIS
- Building an All-in-one Service: Extending an existing Open Access Repository to a complete Research Information System  
Rajski, Beate; Goldschmidt, Oliver; Weidt, Gunnar - Hamburg University of Technology

12:30 - 13:30 – Lunch break

13:30 - 14:50 – Identifiers in research information management

- Establishing the ORCID iD in the German Scientific Community  
Friedrich Summann - Bielefeld University Library / ORCID-DE initiative
- Crossref grant IDs: a global, open database of funding information and identifiers  
Josh Brown - Crossref
- Expanding the World of PIDs: Conference Identifier and their Role in Managing Metadata Quality  
Stephanie Hagemann-Wilholt - TIB - German National Library of Science and Technology
- Using the PID Graph to augment the information in your CRIS System  
Martin Fenner - DataCite

14:50 - 15:05 – Coffee break

15:05 - 16:05 – Research classifications

- Classifications: From Registries to Hunters & Gatherers  
Stephan Gauch, Humboldt-Universität zu Berlin
- Research Classifications: Three major principles  
Jürgen Güdler, DFG
- Building a knowledge graph with automatically acquired publication classifications  
Sven Blanck, Leipzig University

## 16:05 - 16:30 – Panel discussion

Is it possible to harmonise the use of research classifications?

## 16:30 - 16:45 – Coffee break

## 16:45 - 17:15 – News from the euroCRIS board

## 17:15 - 18:15 – euroCRIS Sponsor session

## 19:30 – Social event and dinner @ Ratskeller Münster, Prinzpalmarkt 8

# Wednesday, November 20<sup>th</sup>

## 08:30 - 08:45 – Good morning coffee

## 08:45 - 10:15 – Lightning talks

- **DFG-funded projects 1920 to 1945 – notes on a research information system, that is definitely not ‘current’? But of course, it is!**  
Jürgen Güdler, DFG
- **Analyzing the research data infrastructure in Europe**  
Sadia Vancauwenbergh, U Hasselt
- **European Publication Information Infrastructure - metadata transfers in European context**  
Joonas Nikkanen, CSC
- **Walking towards integrating CRIS and repository at the UPF: The CRIS/IR interoperability Project**  
Anna Guillaumet, SIGMA AIE
- **OpenAIRE Guidelines for CRIS Managers in DSpace-CRIS**  
Susanna Mornati, 4Science
- **New professional roles? Competencies and task profiles in IT-supported research reporting – Introduction to the research project “BERTI”**  
Christoph Thiedig, Stefan Schelske, DZHW
- **A New Approach to Interoperability**  
Andreas Esch, ELFI

## 10:15 - 10:45 – Poster session with coffee break

- **Using DSpace at Fraunhofer – Building up the Fraunhofer Open Science Cloud**  
Andrea Wuchner, Dirk Eisengräber-Pabst, Michael Erndt, Fraunhofer-Informationszentrum Raum und Bau, Germany
- **Linking normative data in Converis**  
Marcus Walther, Bastian Melsheimer, Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany
- **HÉRCULES: Semantic of Universities Research Data**  
Francisco J. Vizcaíno, Reyes Hernández-Mora, Isabel Martínez, Universidad de Murcia, Spain
- **Linked Open Data for Current Research Information Systems (CRIS)**  
Florian K. Gantner, Steffen Illig, Philipp H. Rumpg, University of Bamberg, Germany

## 10:45 - 11:15 – Guest talk

- **Large Research Infrastructure Building using FAIR Digital Objects**  
Peter Wittenburg, Max Planck Computing & Data Facility

## 11:15 - 12:45 – Jostein Hauge session

- **Citation Content Analysis in the Cirtec project**  
Sergey Parinov, Russian Presidential Academy of National Economy and Public Administration (RANEPA)
- **Towards a reference implementation for open scientometric indicators: the ROSI project**  
Christian Hauschke, TIB Hannover
- **Transitioning from Current to Collaborative Research Information Systems**  
Nick Veenstra, Technical University Eindhoven
- **Deployment of the Finnish Interoperability Platform in the Design of the Research Information Hub**  
Tommi Suominen, CSC

## 12:45 - 13:45 – Lunch break

## 13:45 - 14:45 – euroCRIS Strategic Partner session

- **LYRASIS + DuraSpace: what's next after the merger**  
Michele Mennielli, LYRASIS
- **CRISs under scrutiny: some recent trends**  
Annette Dortmund, OCLC
- **The Jisc Open Research Hub and its role in open research infrastructure**  
Hilda Muchando, Jisc

## 14:45 - 15:45 – Emerging CRIS infrastructure

- **Creating the Croatian National CRIS**  
Ognjen Orel, University of Zagreb Computing Centre
- **The Hércules Semantic University Research Data project**  
Reyes Hernández Mora Martínez, Universidad de Murcia
- **IRINS: The Indian Research Information Network System**  
Kannan P, Central University of Punjab, and K. Siva Shankar, INFLIBNET Centre Gandhinagar

## 15:45 - 16:00 – Short coffee break

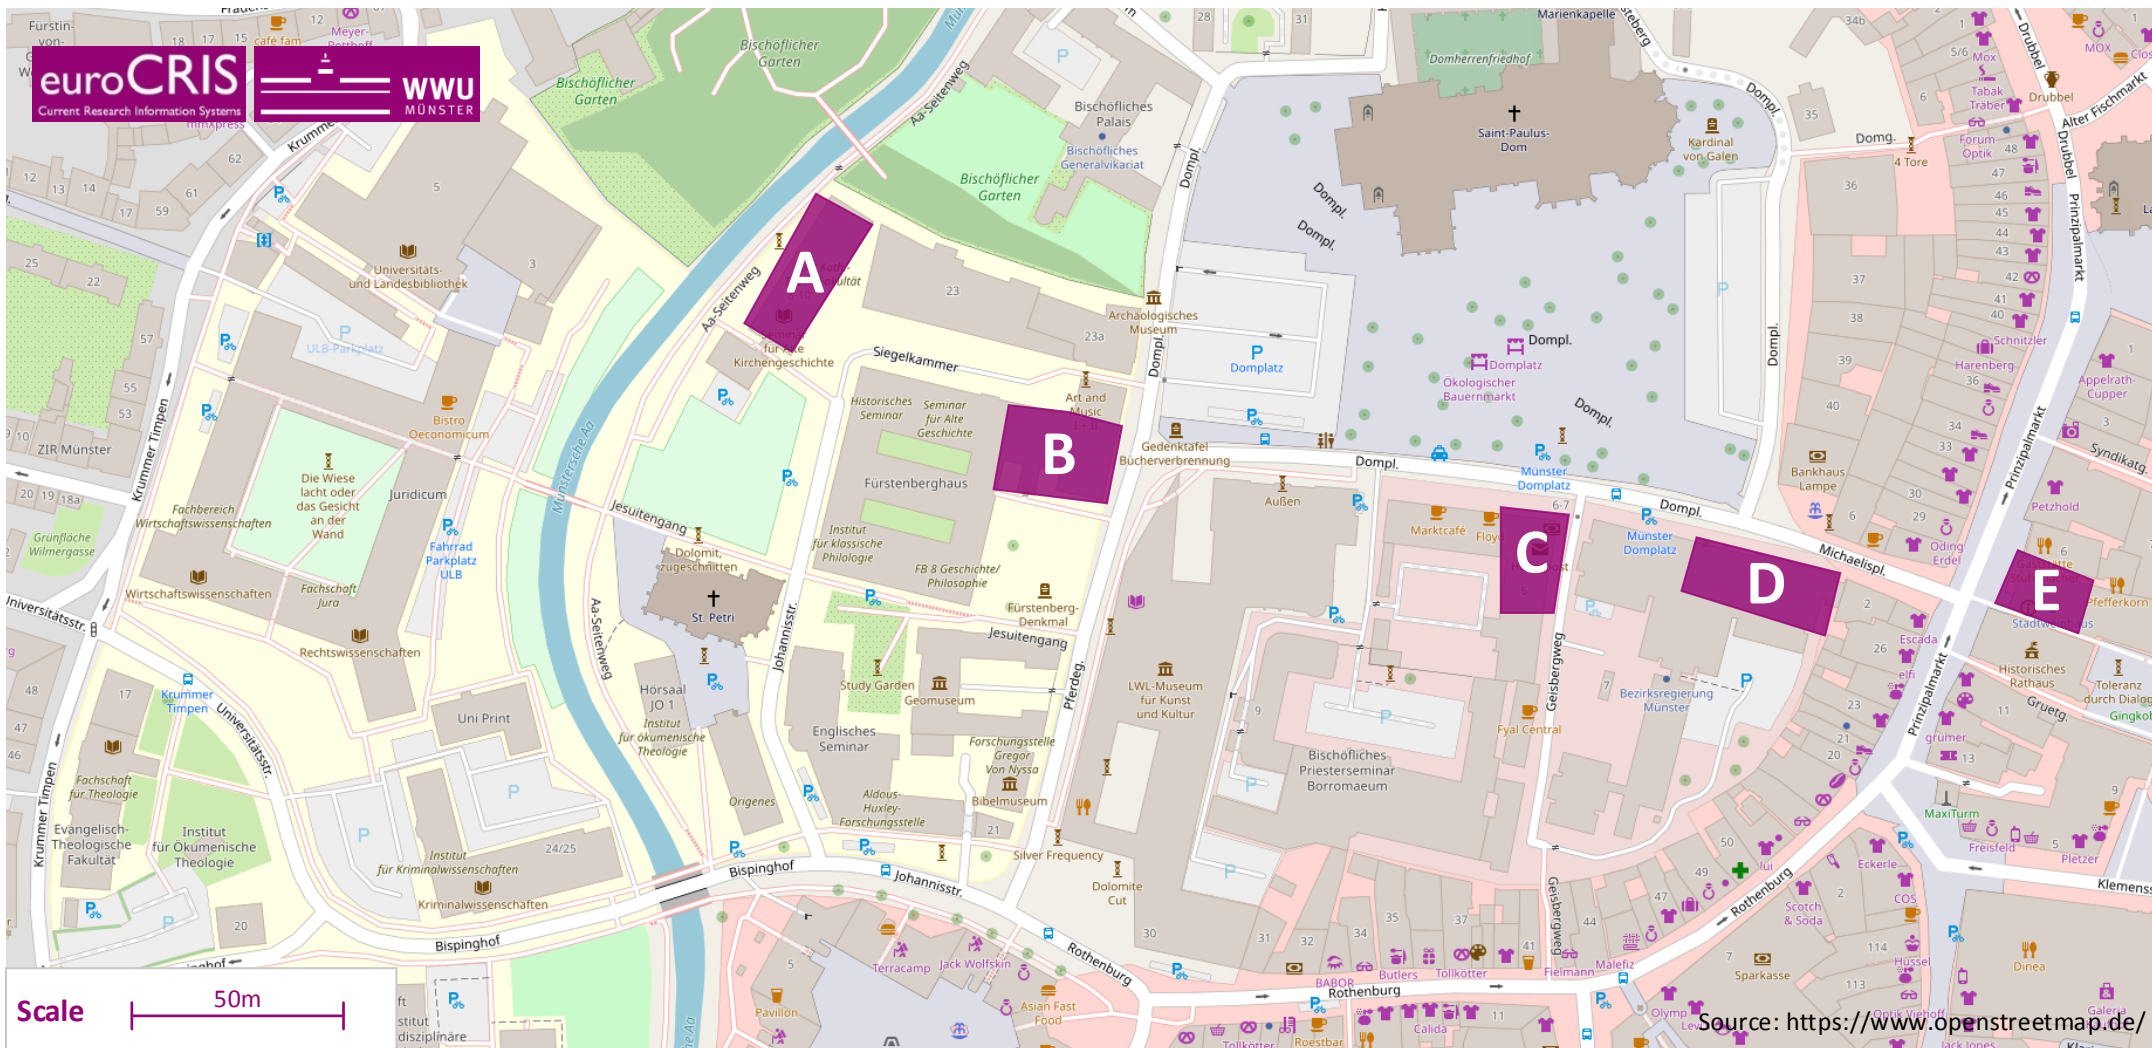

## 16:00 - 17:00 – Subject-based CRISs

- **Beyond university-focused research profiles with VIVO: perspectives of a service provider**  
Brian Lowe, Ontocale
- **BE OPEN - Open Science in transport: stakeholders involved and their areas of interest, main gaps and opportunities to overcome**  
Kristel Palts, The German Aerospace Center (DLR)
- **Panel discussion: How to make interoperability happen?**

## 17:00 - 17:15 – Wrap up and closing

We cordially thank our co-organizers and sponsors!

## Venue map - Münster

- A** Johannisstr. 8-10, room KTh IV  
-> DSpace-CRIS User Group Meeting
- B** Fürstenberghaus, Domplatz 20-22, room F02 (1st floor)  
-> Developers' workshop: OpenAIRE CERIF-XML Guidelines  
-> CERIF tutorial

- C** Domplatz 6-7, room 303 (3rd floor)  
-> euroCRIS board meeting  
-> Interest group meeting on the updated DRIS
- D** Bezirksregierung, Domplatz 1-3, hall 1 (ground floor)  
-> Welcome reception  
-> All sessions of day 1 and day 2
- E** Ratskeller Münster, Prinzipalmarkt 8  
-> Social event and dinner
